This is happening to Liberty lovers and advocates.

It has happened to Ian Freeman of Free Talk Live, Liberty Radio Network. Also apart of Free State Project.

It has happened to Brian D. Hill, the former news reporter of USWGO Alternative News. See case files here: <https://archive.org/details/USAvHill>

child porn and child molestation. Email will be pasted publicly to show the reasons why innocent people are being framed with child porn, because nobody will listen to a suspect nor will any lawyer help them unless they bribe..err I mean pay hundreds of thousands of dollars. Innocent people can now be framed with child porn because lawyers don't care when innocent people can easily be set up so I cussed him out as my last email to Mr. Attorney Meehan.

Body: Please be again advised that I do not represent Mr Copp and have as much intention of ever trying to help Copp out as you have in contributing 1 cent of your own money to see that he receives a fair trial. I wouldn't represent a child molester for all the money in the world let alone want to listen to any more of your lunatic rants. Here's how I feel about anyone who would create or condone child pornography:

Jesus hates child abusers:

"If anyone causes one of these little ones--those who believe in me--to stumble, it would be better for them to have a large millstone hung around their neck and to be drowned in the depths of the sea. Now leave me alone. You and your associates and whacked out stupid last gasp conspiracy theories ideas sicken me.

Do not ever call me or write to me again ever about anything

Should innocent people be framed with child porn?

Is it better to jail innocent people forever because of the fiction that child molesters will be scared?

Should child porn witch hunts without the trial to due process be allowed?

Hi! Welcome to LNF.

What brings you here?

Under Capitalism, Man exploits Man.

Under Communism, it's the exact opposite.

Hi! Welcome to LNF.

What brings you here?

I am a Liberty oriented individual as my respectful person and do not recognize federal tyranny.

I am tracking an ongoing campaign to which the Federal Government is framing innocent people such as news reporters, political candidates, and political activists with child porn to restrict their freedom of speech/press under the Adam Walsh Act. Some

Violation to use the internet or even to use a computer.

They did this to Madison Ruppert of EndTheLie, my buddy who monitors Planet Infowars spotted a taunting post in 2013 where they(political hackers squad) attempted to set up Alan Watt, the frame up attempts of Melissa Melton and Aaron Dykes, Stewart Rhodes of OathKeepers, Brian D. Hill of USWGO Alternative News and the Nullify-NDAA Petition and wanting people to peacefully secede from Government, Ian Freeman of Free Talk Live and Liberty Radio Network under the Shire Society, Jeffrey Lewis of the Patriot Coalition a Liberty organization, Daniel Johnson of People Against the NDAA, and others.

The number of patriots and others being framed with child porn are increasing slowly as federal convictions are secured.

Brian D. Hill is announcing that he wishes to overturn his conviction on Actual Innocence claim or on a Motion for a New Trial based upon newly discovered evidence that could not have been previously exercised under due diligence. He is also asking for a lawyer and Eric Clark is asking for fundraising donations to Eric@whitestonepublishing.org. We need to set up some official fundraiser for Brian as overturning his conviction will start to make it difficult to frame people with child porn. I hate bringing up this subject but too many people are being set up now, and now Ian Freeman or any of his radio show staff can be arrested and charged. They are a threat to the corrupt Federal centralized Government and the BAR Association which is the British Accredited Registry. Ian along with the Free State Project wanted to send Libertarians into New Hampshire to take over the population to secede from the United States. After Libertarians become the majority of that state, they were going to be elected into various government positions and oust the Democrat and Republican Duopoly over the President and other election position ballots. Only two party factions control the election process and Brian D. Hill plus Ian Freeman threatened those seats of power. Both were raided for the same crime accusation, one falsely confessed while the other retained enough finances for legal counsel, both were into Liberty and sovereignty, and both were a threat to the powers that be in a peaceful manner.

We need to peacefully end Brian's wrongful criminal

pull with his radio show to fight his federal case if he is ever charged. Brian cannot afford a lawyer so there needs to be a fundraiser and shown on radio shows such as Gavin for Liberty.

If your forum is willing to help Brian raise the funds to fight his conviction then he promises to WIN. If he loses then he faces multiple counts of perjury and lying to the FBI charges. He is confident that he will win that he released his Innocent Affidavit to the State Bureau of Investigation and the State Police.

Brian risks perjury charges in Virginia and North Carolina, and other charges since he kept declaring his Innocence over and over again. The only reason he hasn't proven his innocence yet nor won the Jury Trial is because he needs a REAL lawyer unlike the public defender nightmare that takes tax payers money just to screw over every client. We are paying taxes to sell people like Brian Hill into slavery such as the Prison Industrial Complex and the Probation system.

I am against slavery and knew that the original thirteenth amendment of the U.S. Constitution which was burned and censored, talked about barring the Government from issuing a title of nobility. That would mean that it would be illegal for the Court to grant Judges and lawyers with "Titles of Nobility." Such titles are terms such as "Your Honor!" or "Yes Sir!". A Judge can be the worst person ever that follows Satan and yet we are forced to call him "Your Honor."

I disagree with the criminal Justice system as it stands. They rob you of your assets, money, and tax payers money just to punish both innocent and guilty people. There are real criminals that are a threat to the community and then there are ones that aren't. Then there are innocent people that are being punished. People with Autism being wrongfully punished.

I vouch peacefully for a more libertarian type of Government that respects the right to proceed Pro Se or that a Next Friend can become a Attorney of record. I believe that best friends should represent people in Trials instead of it being licensed lawyers that charge \$300,000 just for a slight chance of proving innocence. I shouldn't have to go to prison because it's cheaper. It violates our civil liberties that the Courts have caused criminal convictions based off of financial status(if your poor you will be convicted) and political views.
